THE VOICE OF NI SOFTWARE

Following the continued success of **Big Data Belfast**, **Big Data NYC**, and the **inaugural Big Data Dublin**, we are delighted to return to Dublin for the 2026 edition of this flagship conference.

Hosted once again at Microsoft's world-class headquarters in Sandyford, Big Data Dublin 2026 will bring together senior leaders, technologists, and innovators to explore the next phase of artificial intelligence and data-driven transformation.

This year's event will take a deeper dive into AI, examining not just its rapid evolution, but how it is being deployed across industries in practical, impactful ways. From cloud to edge, from strategy to implementation, the conference will showcase how organisations are turning data into real-world intelligence.

With expert keynote speakers, engaging panel discussions, and high-value networking opportunities, Big Data Dublin continues to position Ireland at the forefront of the global data and AI economy.

» Big Data Dublin 2026 brings together visionary leaders and cutting-edge innovation to showcase how data and AI are transforming ideas into real-world intelligence.

Target Audience and Industries

**BIG DATA
DUBLIN**
23rd June 2026

Target Audience

C-suite executives (CTOs, CIOs, CDOs)
Senior technology and innovation leaders
Data scientists, AI engineers, and architects
Business leaders and decision-makers across SMEs and enterprises
Policymakers and public sector leaders
Academics and researchers in AI and data science
Startups, scale-ups, and investors in the data and AI ecosystem

Industries Represented

Big Data Dublin 2026 will bring together insights from a diverse range of sectors, including:

Financial Services
FinTech
Advanced Manufacturing
Agri-food
Defence Public Sector
Technology & Startups

» This cross-industry perspective ensures a rich exchange of ideas and practical learning across different operating environments.

Conference Themes

**BIG DATA
DUBLIN**
23rd June 2026

AI in Action

How organisations are operationalising AI to drive efficiency, innovation, and competitive advantage.

From Cloud to Edge

Exploring how intelligence is moving closer to where data is created — enabling faster, smarter decision-making.

Data Strategy & Infrastructure

Building scalable, secure, and future-ready data ecosystems.

Trust, Ethics & Governance

Navigating regulation, ensuring transparency, and building responsible AI systems.

The Future of Work in an AI Era

Skills, talent, and organisational change in a data-driven world

» Whether you are exploring strategy, scaling solutions, or looking to stay ahead of emerging trends, this event offers a unique opportunity to gain insight, build connections, and be part of the conversation defining the next era of innovation.

Conference Aims and Objectives

**BIG DATA
DUBLIN**
23rd June 2026

Aims:

To establish Big Data Dublin as a leading forum for AI and data innovation in Ireland

To foster meaningful collaboration across industries and sectors

To showcase practical applications of AI that deliver measurable impact

» Big Data Dublin 2026 is more than a conference — it is a meeting point for those shaping the future of AI and data.

Objectives:

Attract **400+** senior attendees from across Ireland and beyond

Deliver a **curated programme** of keynotes, panels, and discussions

Provide a platform for partnerships, investment, and knowledge exchange

Support sponsors with strong brand visibility and thought leadership positioning

Encourage dialogue around responsible, scalable AI adoption
